MOYTRONIX

Showroom Display

15.6″ PCAP touch + 29″ stretched display in one freestanding unit — interactive product storytelling for showrooms & retail

One elegant floor-standing unit, two Android screens. Customers browse and interact on the 15.6″ ten-point touch screen while the 29″ stretched display above runs eye-catching promotions and brand content. Both screens are driven independently and managed remotely with ScreenFusion, the cloud CMS — perfect beside a product plinth, car, kitchen display or any hero exhibit. The enclosure is fully customisable with your branding.

MOY-DSRD unit

In showroom

■ Dual-screen design

Interactive touch below, high-impact stretched promo screen above — one compact floor unit.

■ 10-point PCAP touch

Commercial projected-capacitive glass rated for 500 million touches.

■ Both screens Android

Independent Android 11 players — no PC required, content on each screen separately.

■ ScreenFusion CMS

Schedule and update both screens remotely over Wi-Fi or LAN.

■ Plug & play

Wi-Fi, Bluetooth and USB — or load content from a stick.

■ Customisable branding

Enclosure colour and vinyl branding tailored to your showroom.
